Snowflake and Power BI Integration with Data Visualization

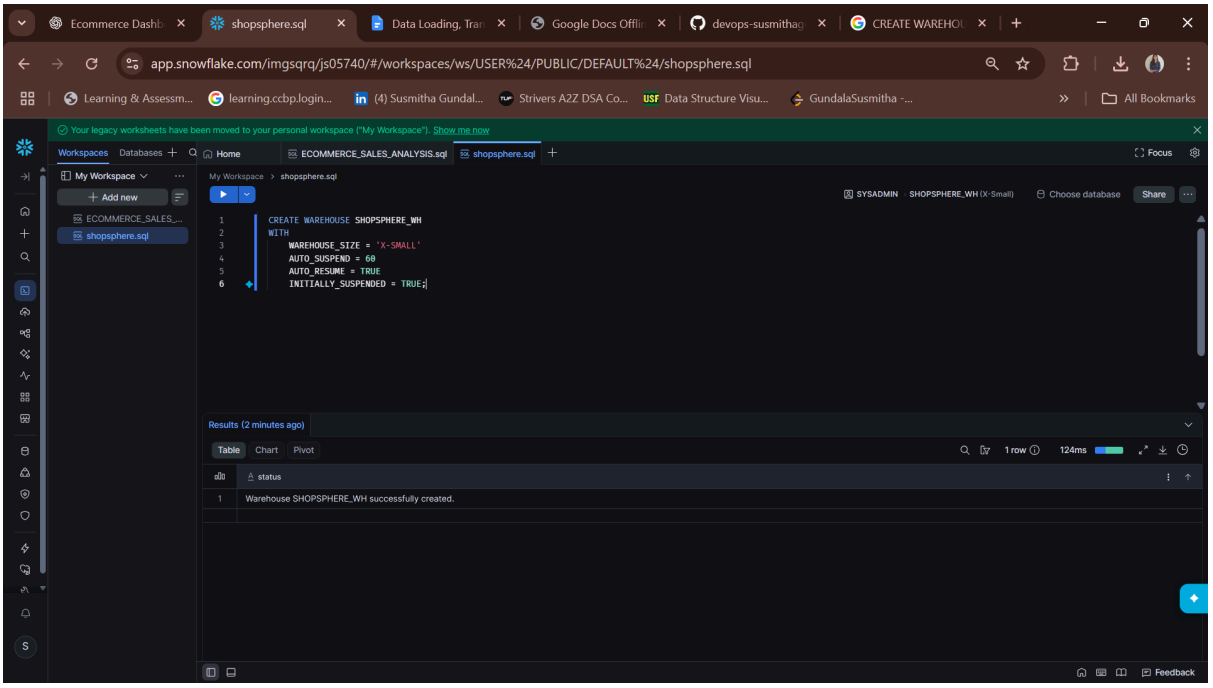

Business scenario

Business Name: ShopSphere – E-commerce Retail Store

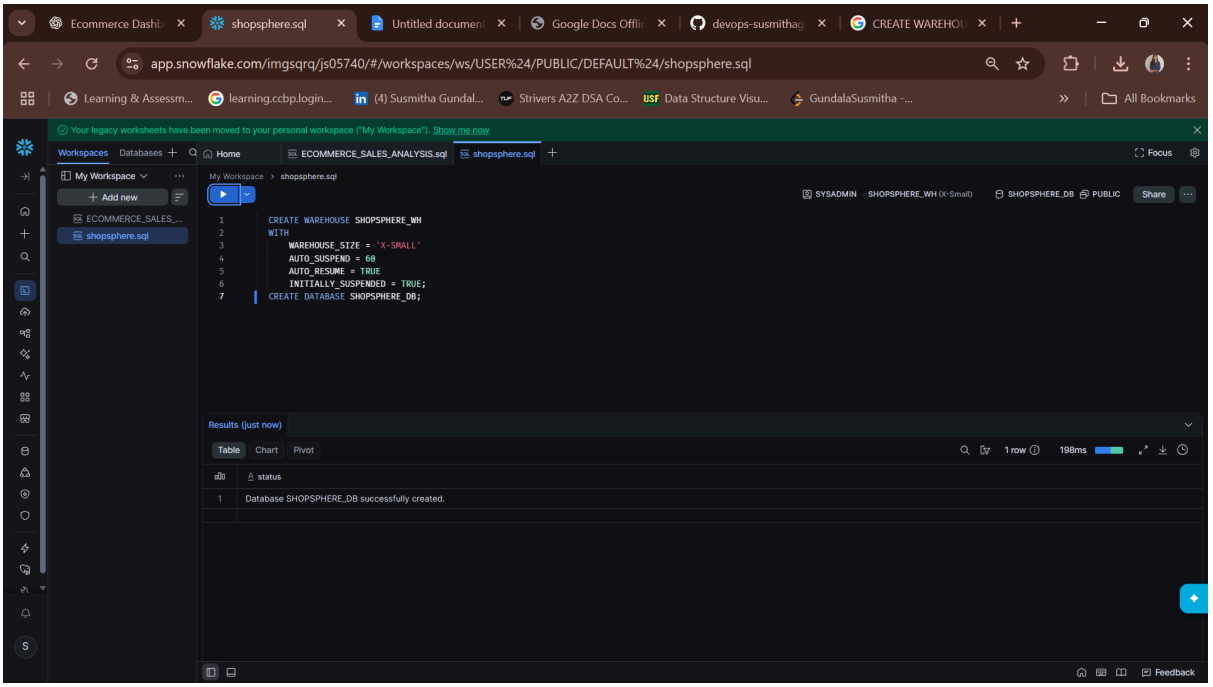

Objective: ShopSphere is an online retail company selling products across multiple categories in different Indian cities. The management wants a Power BI dashboard connected to its Snowflake Data Warehouse to monitor sales performance and identify business opportunities.

Explanation:

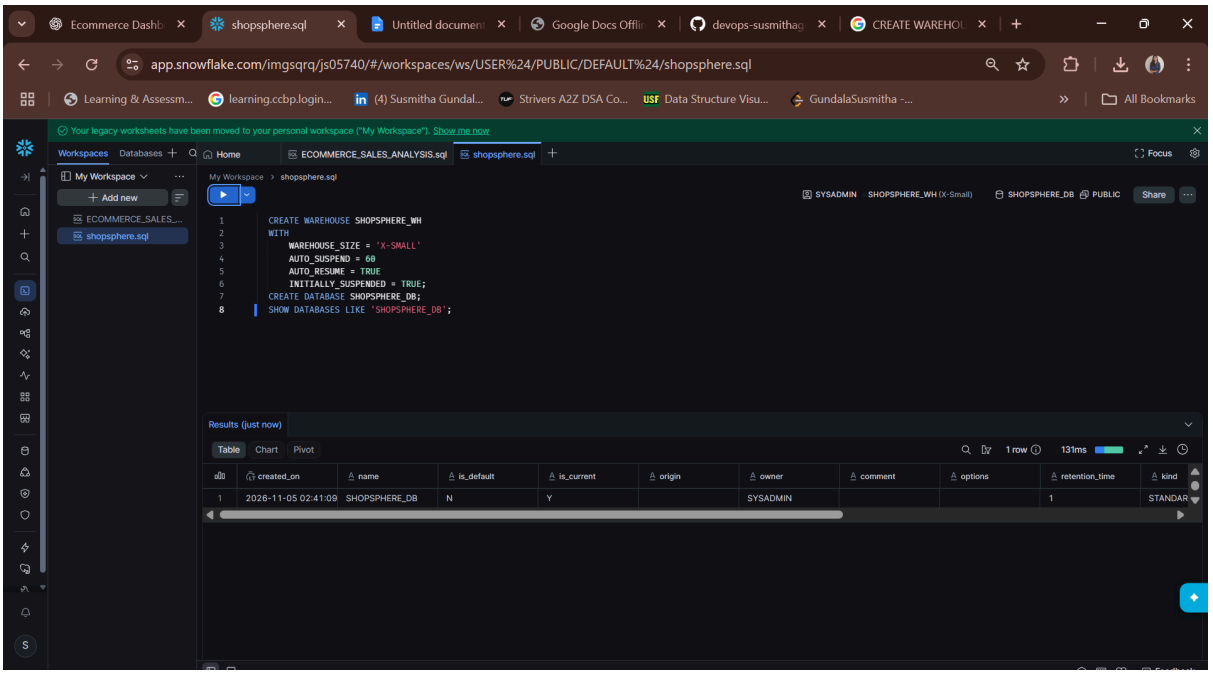

Create a Virtual Warehouse

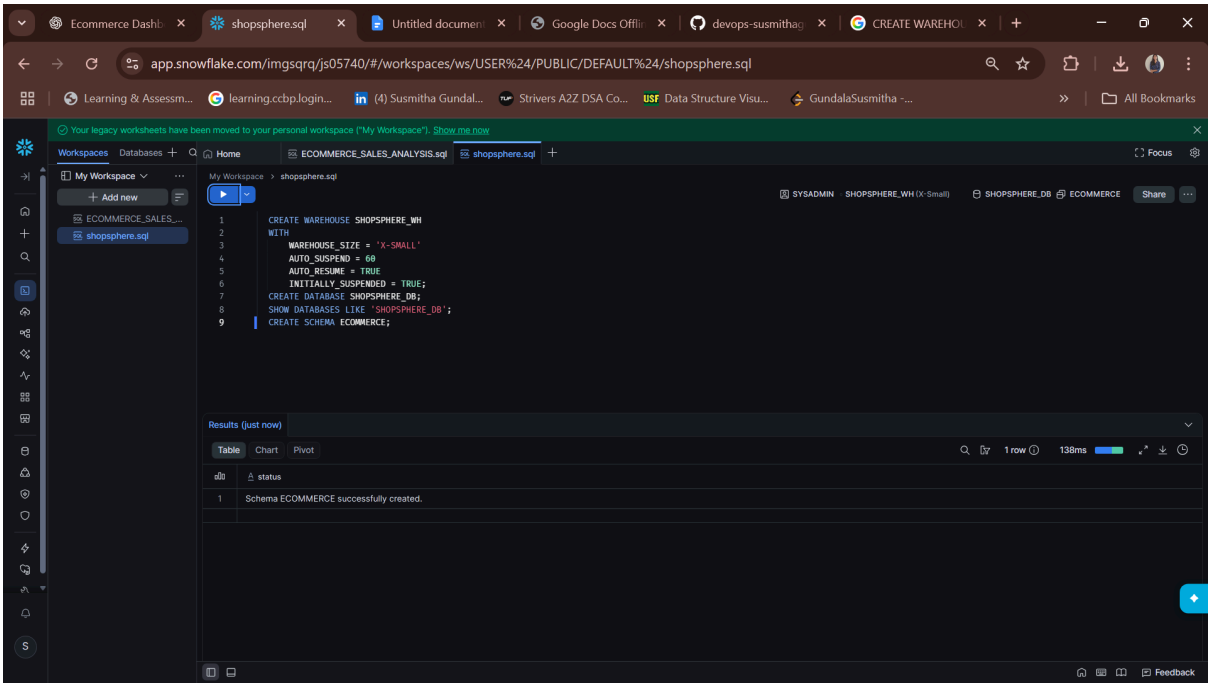

Create the Database

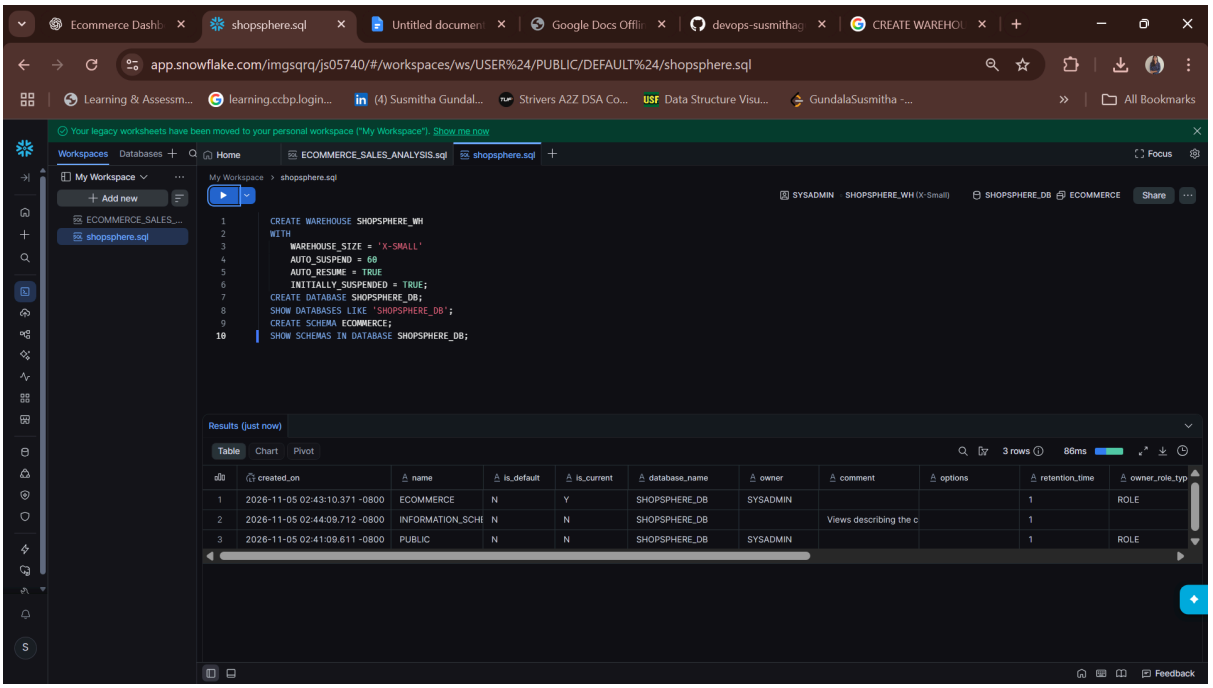

Show the database

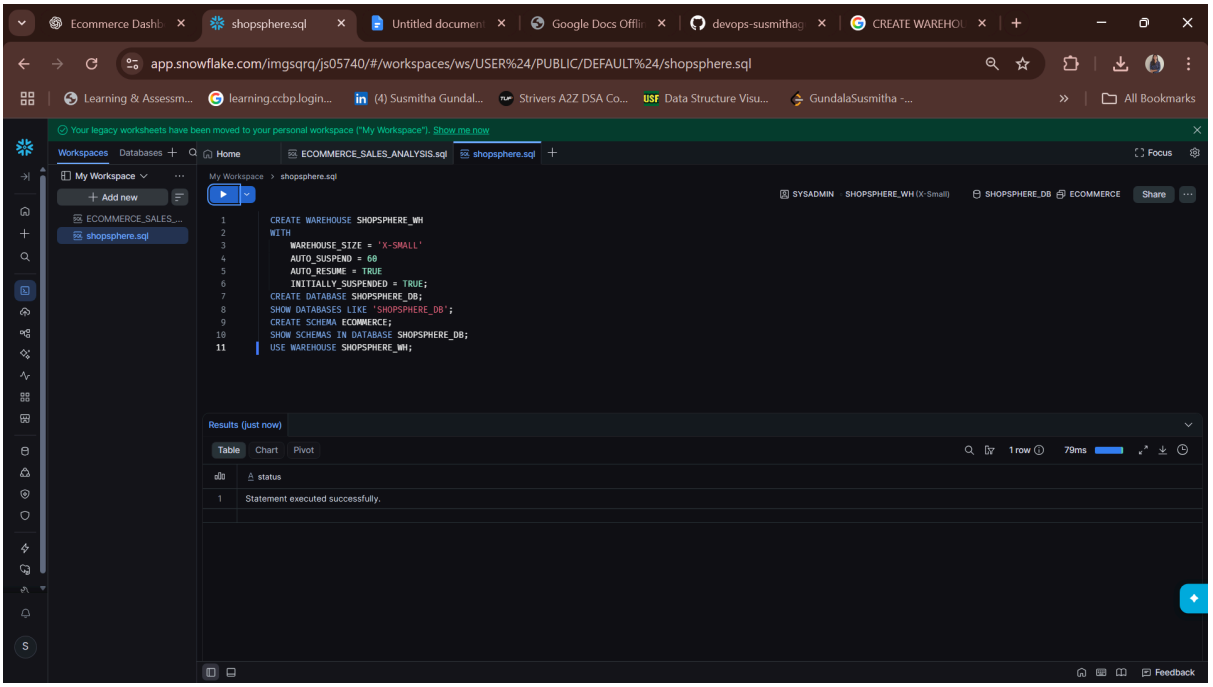

Create the Schema

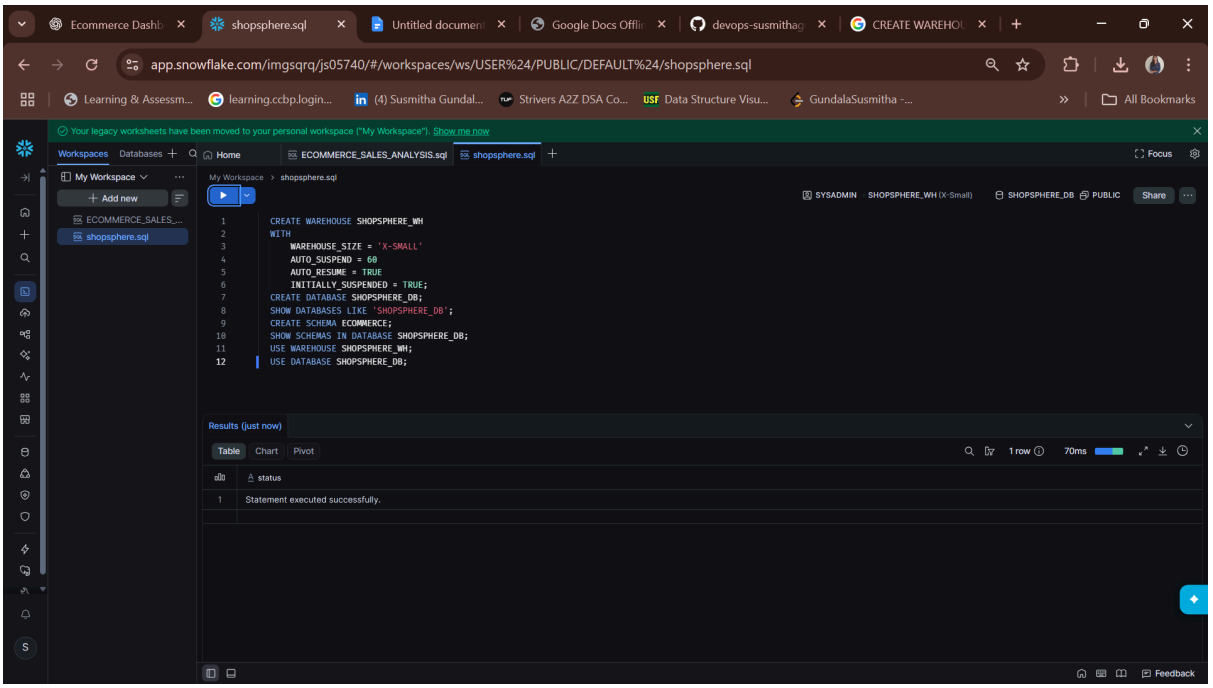

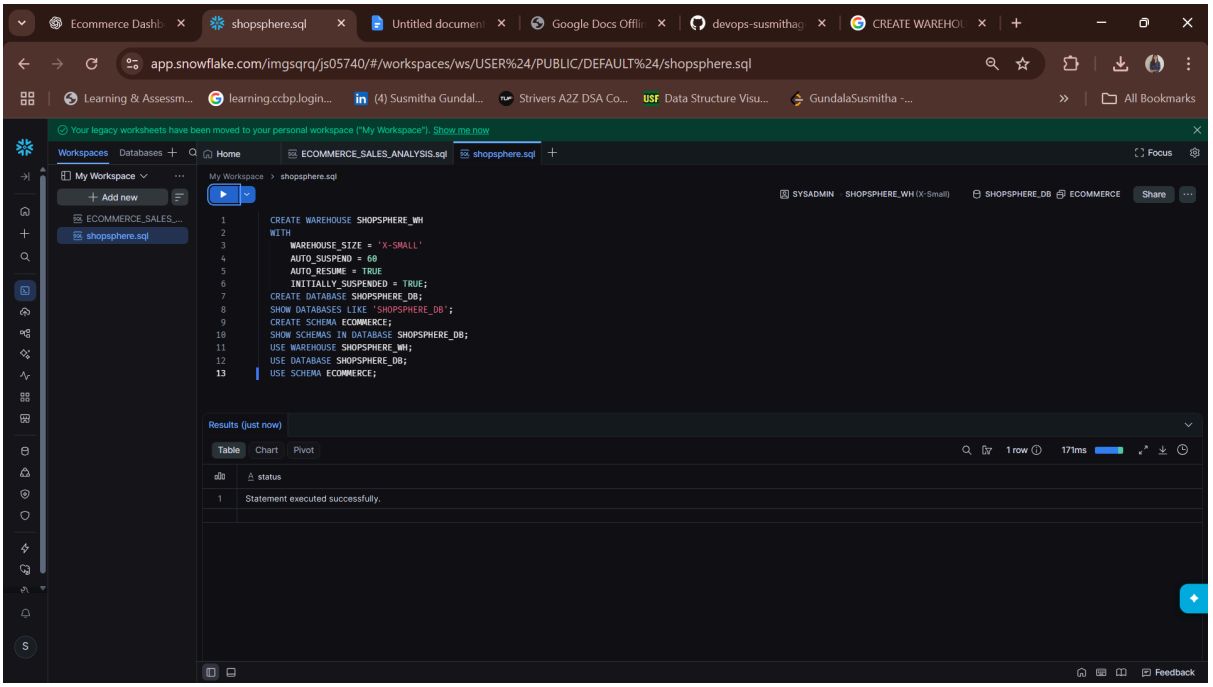

Use warehouse

Use database

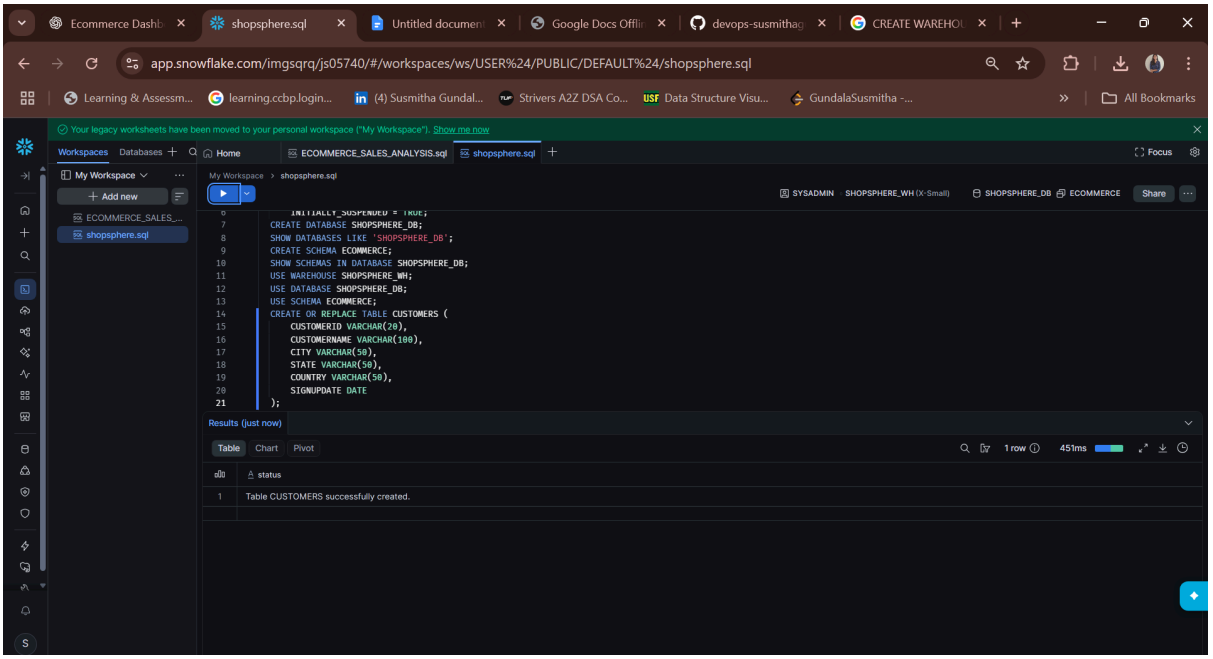

Use Schema

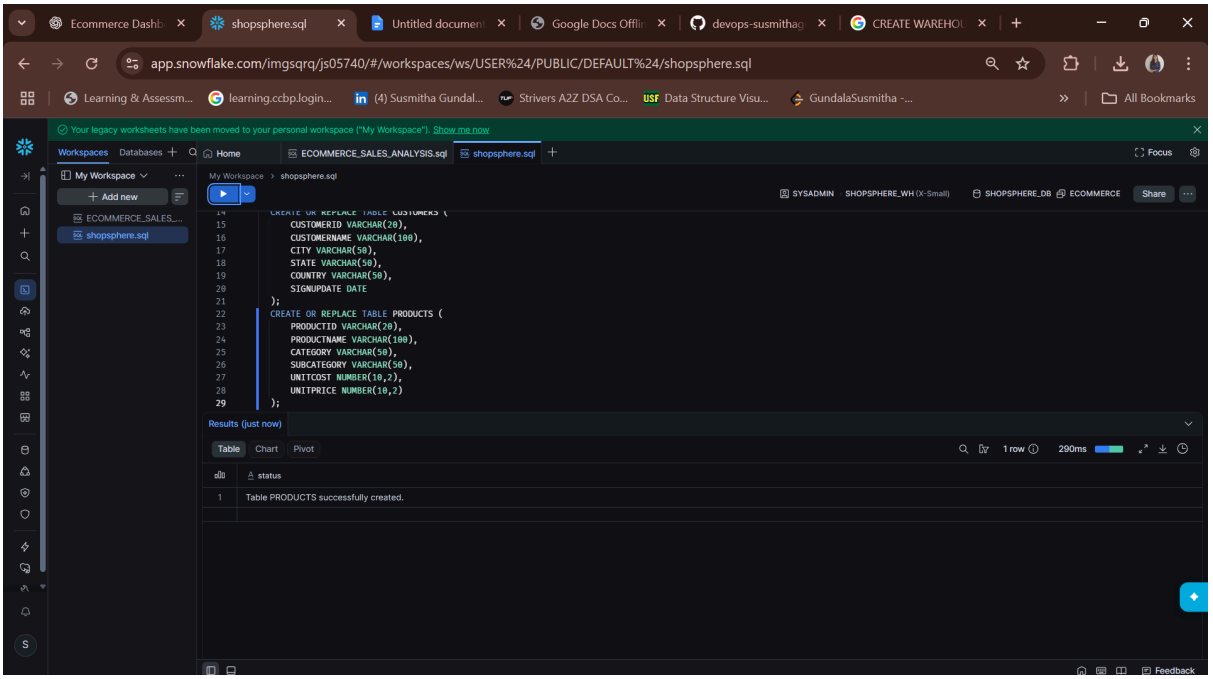

Create the four tables

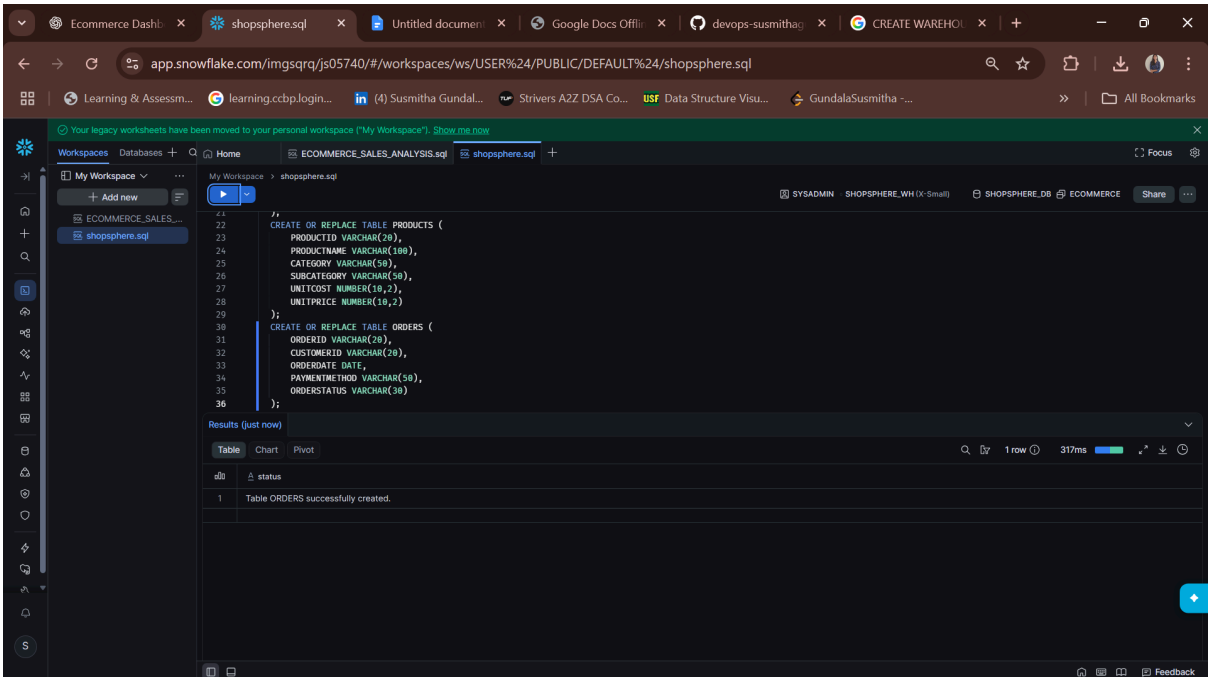

1. CUSTOMERS

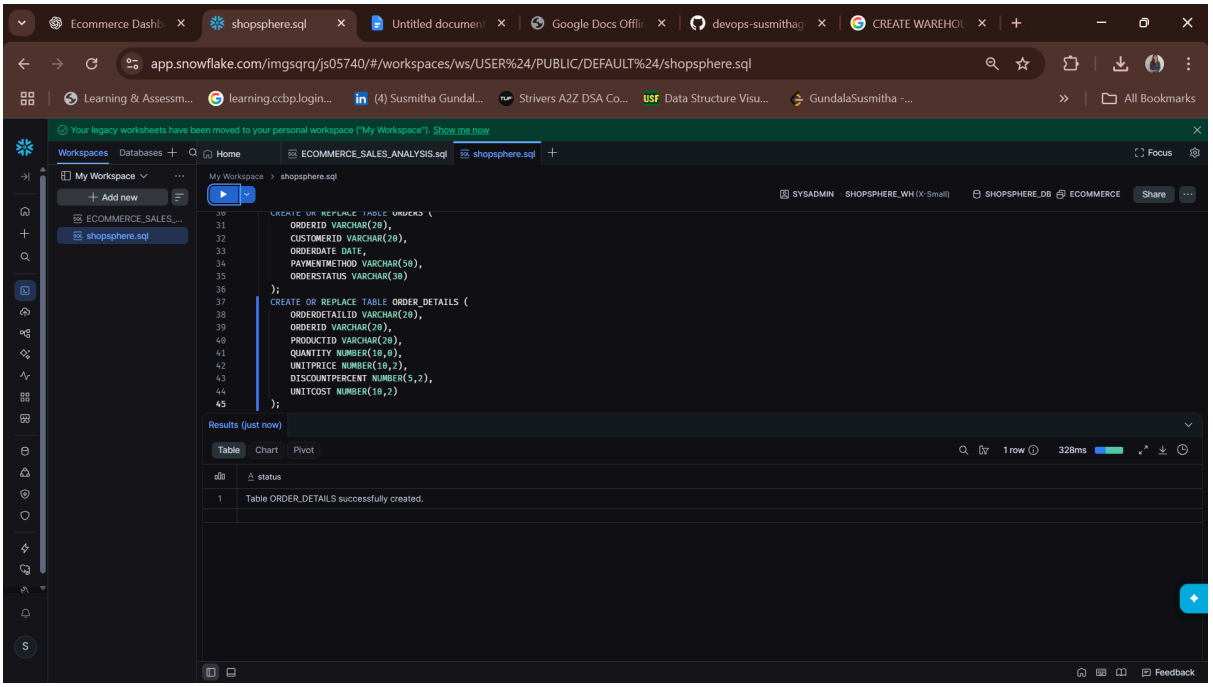

2. PRODUCTS

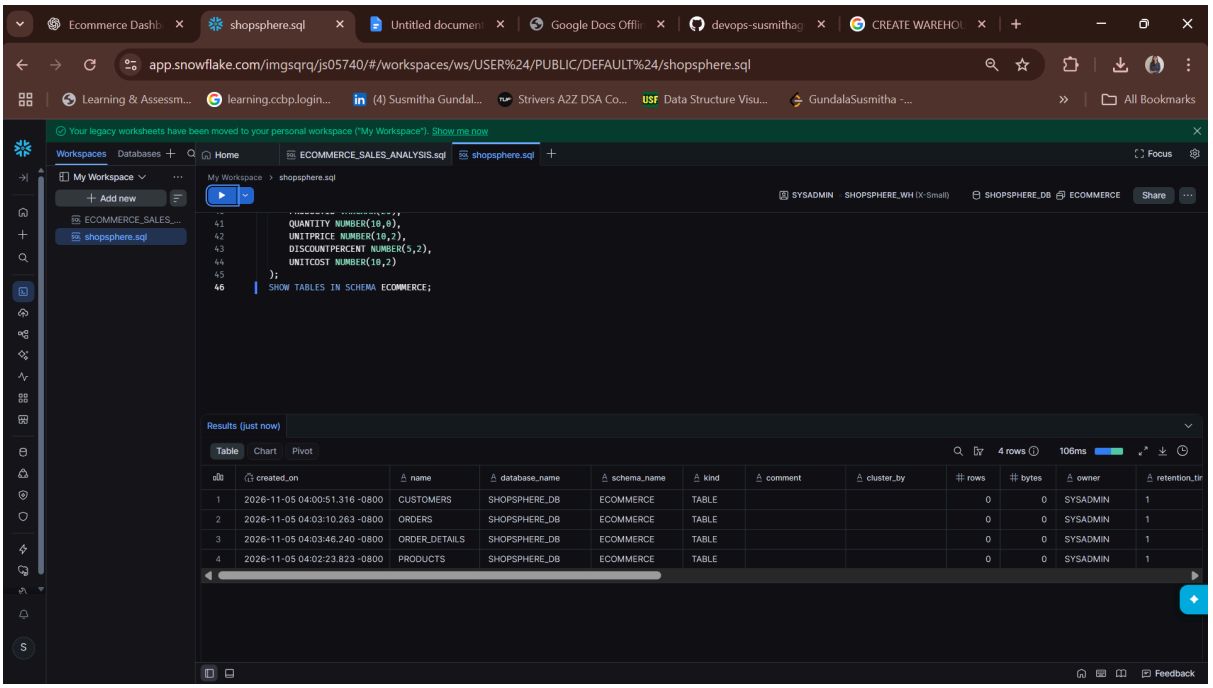

3. ORDERS

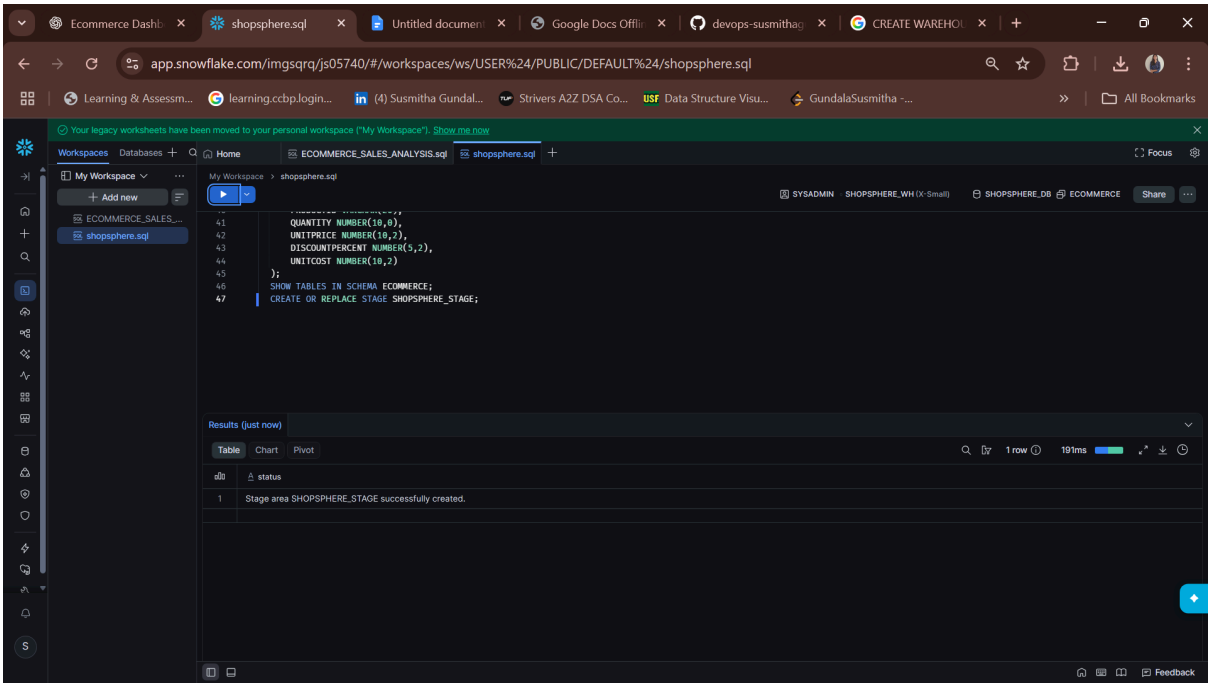

4. ORDER_DETAILS

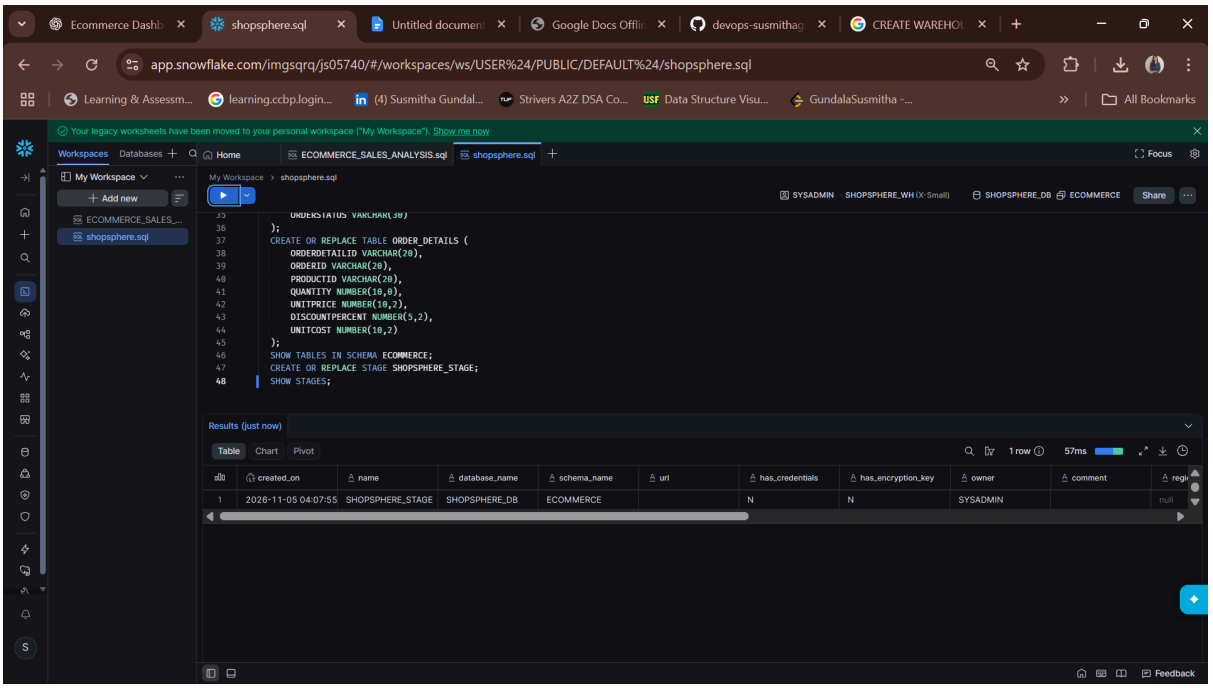

Verify table creation

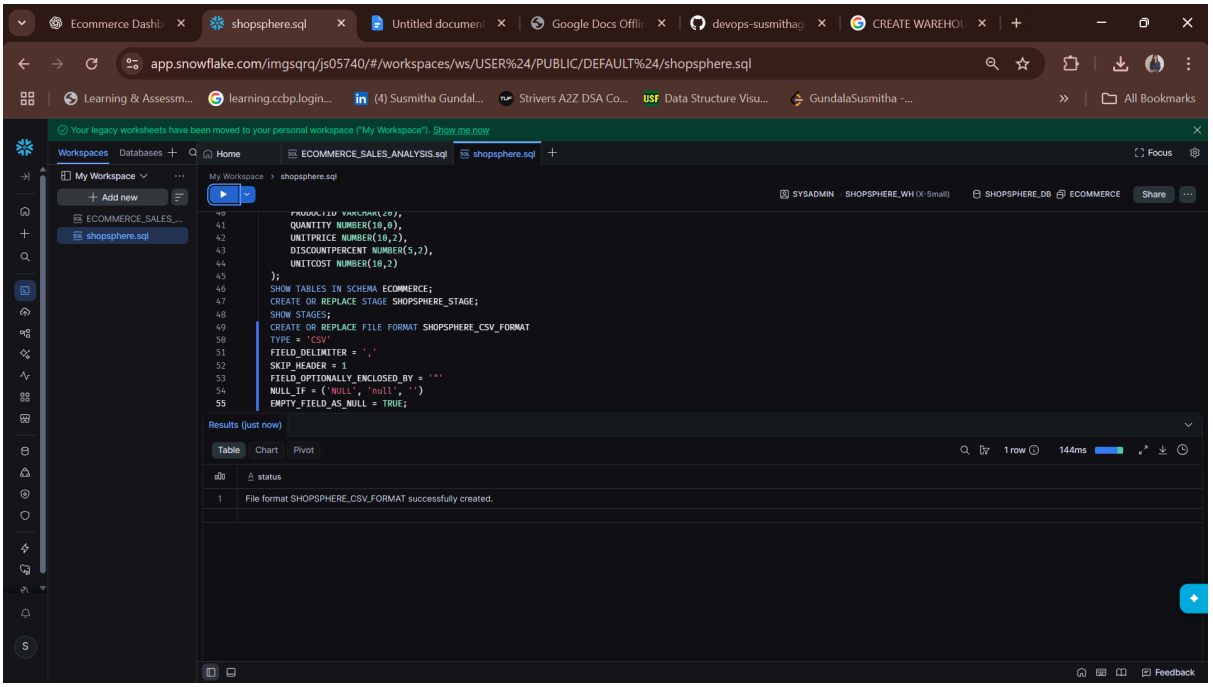

Create an internal stage

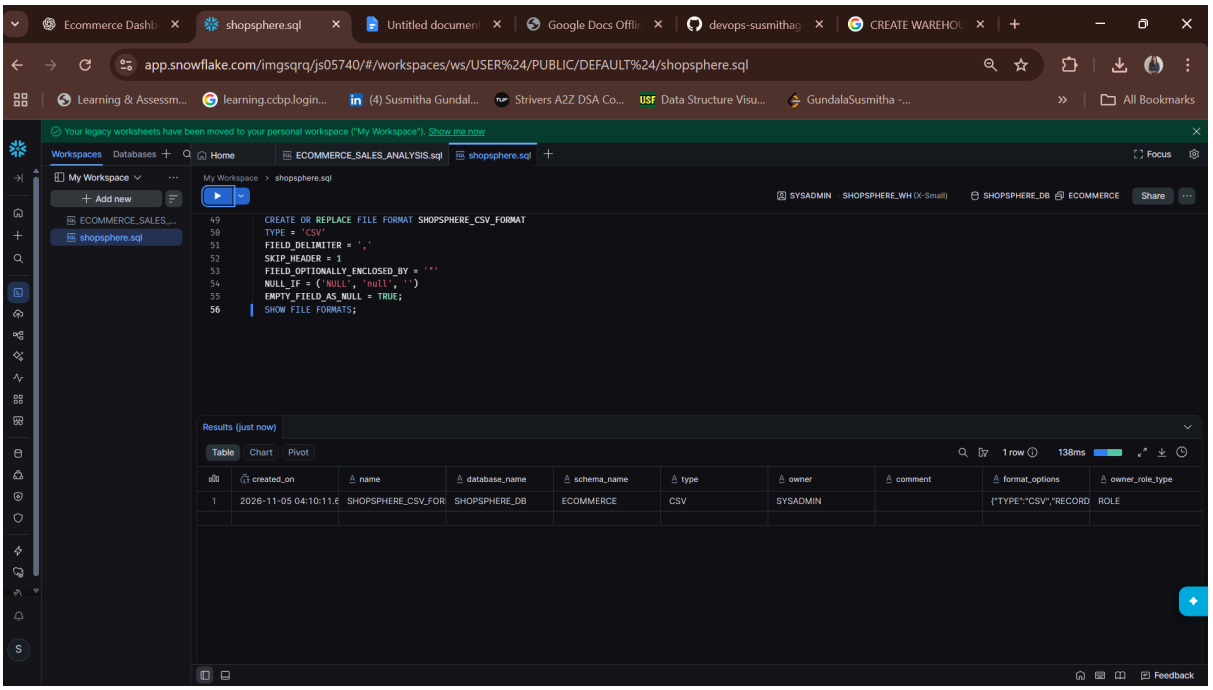

Verify:

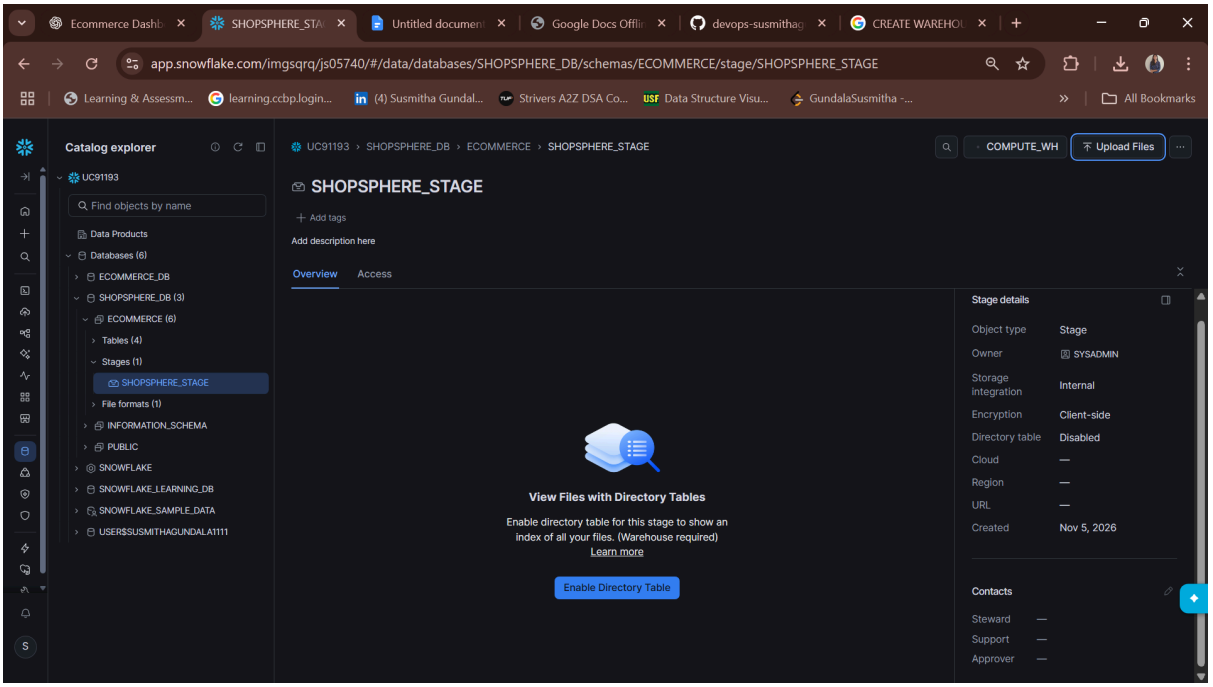

Create a file format

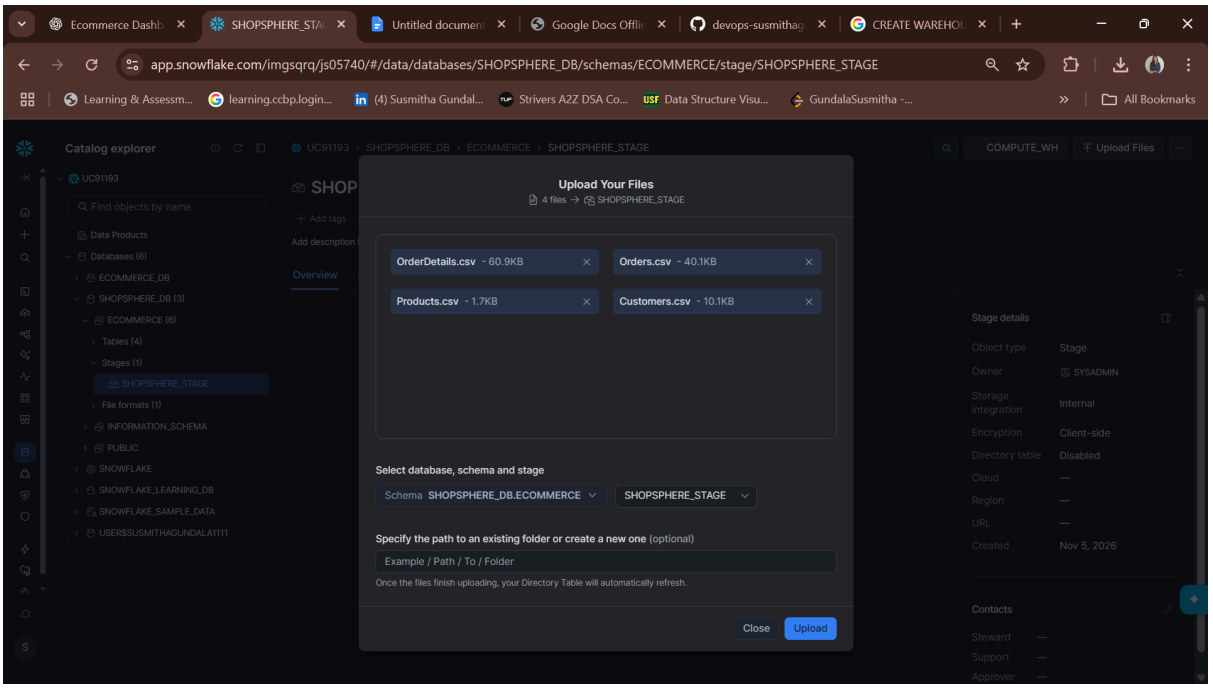

Verify:

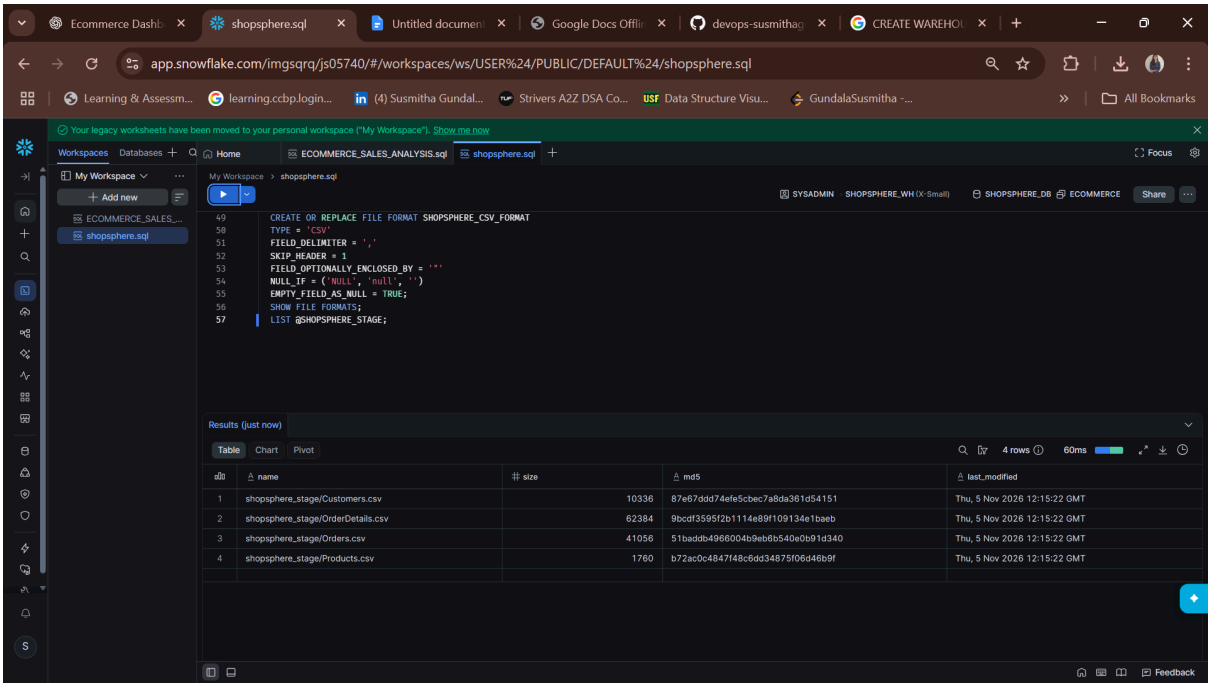

Upload CSV files into the stage

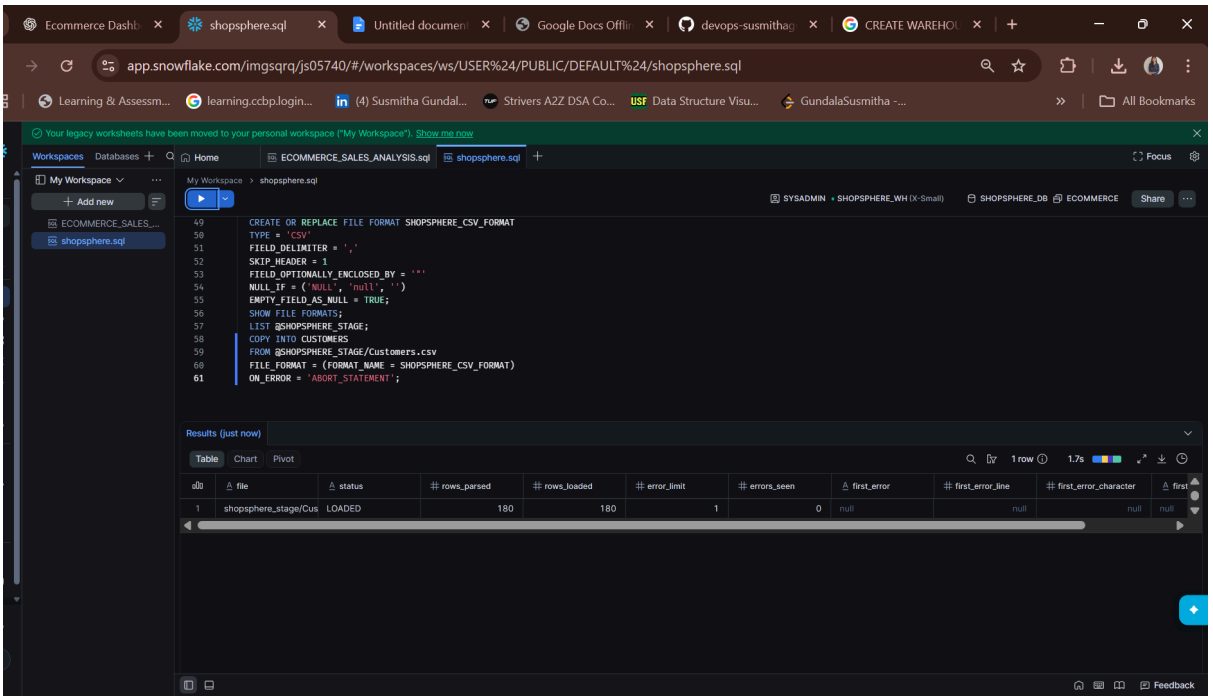

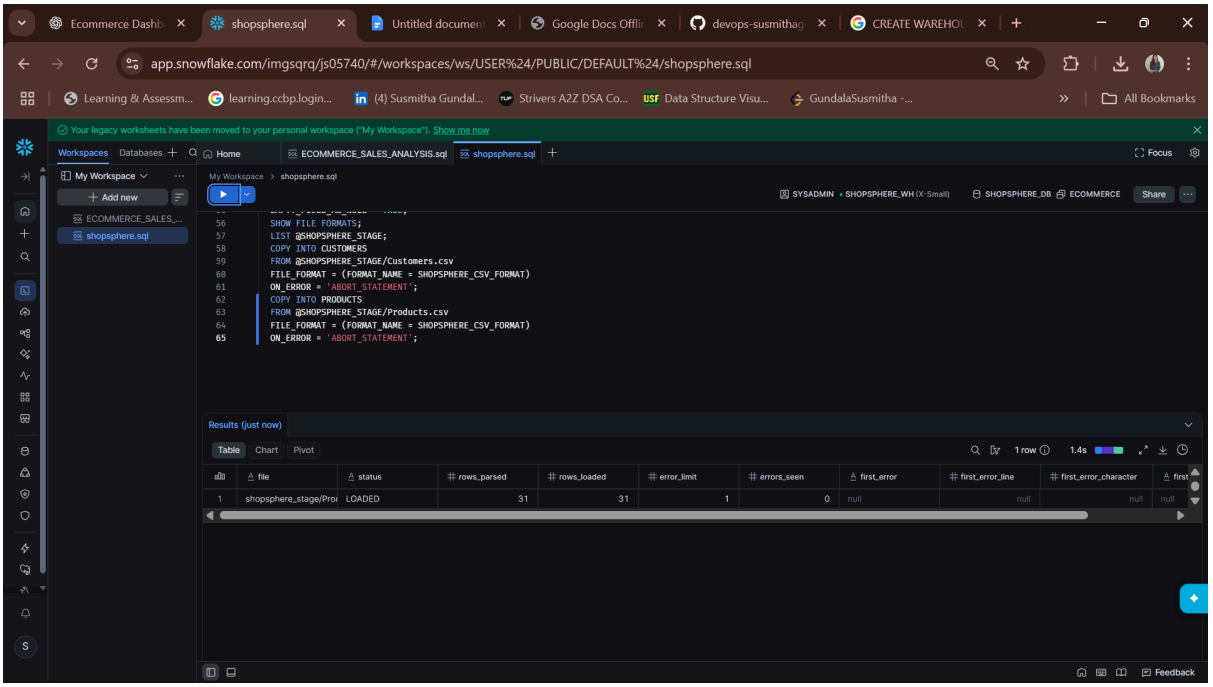

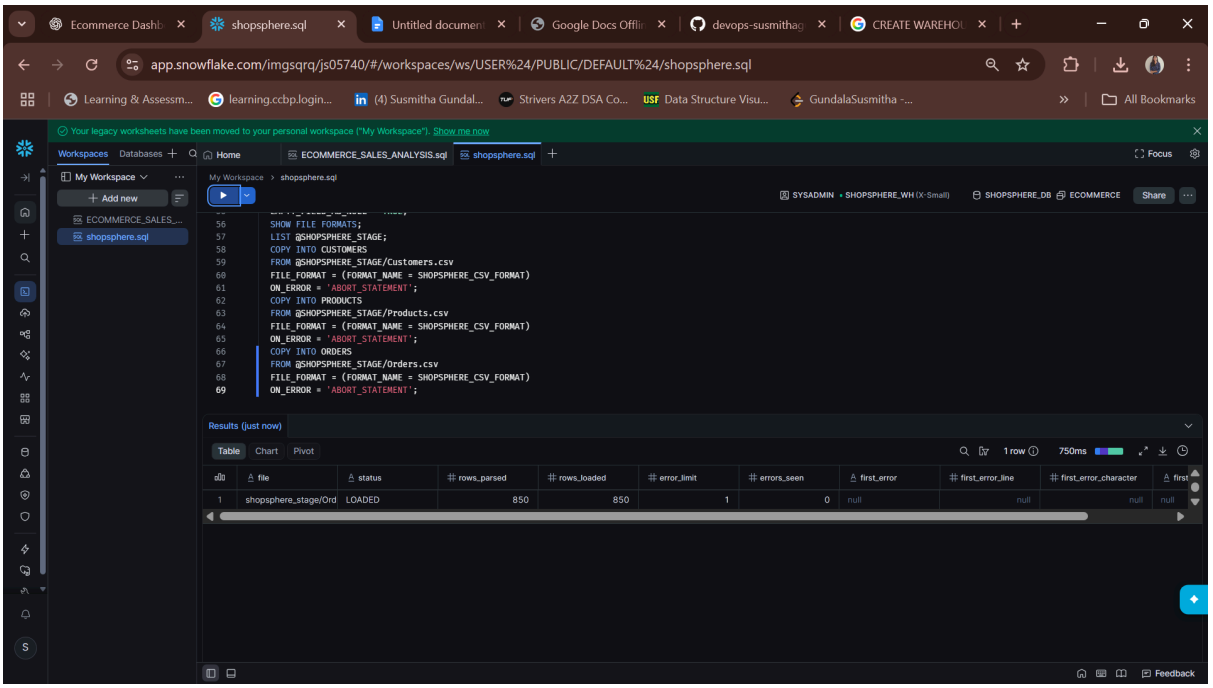

Verify that the files are uploaded:

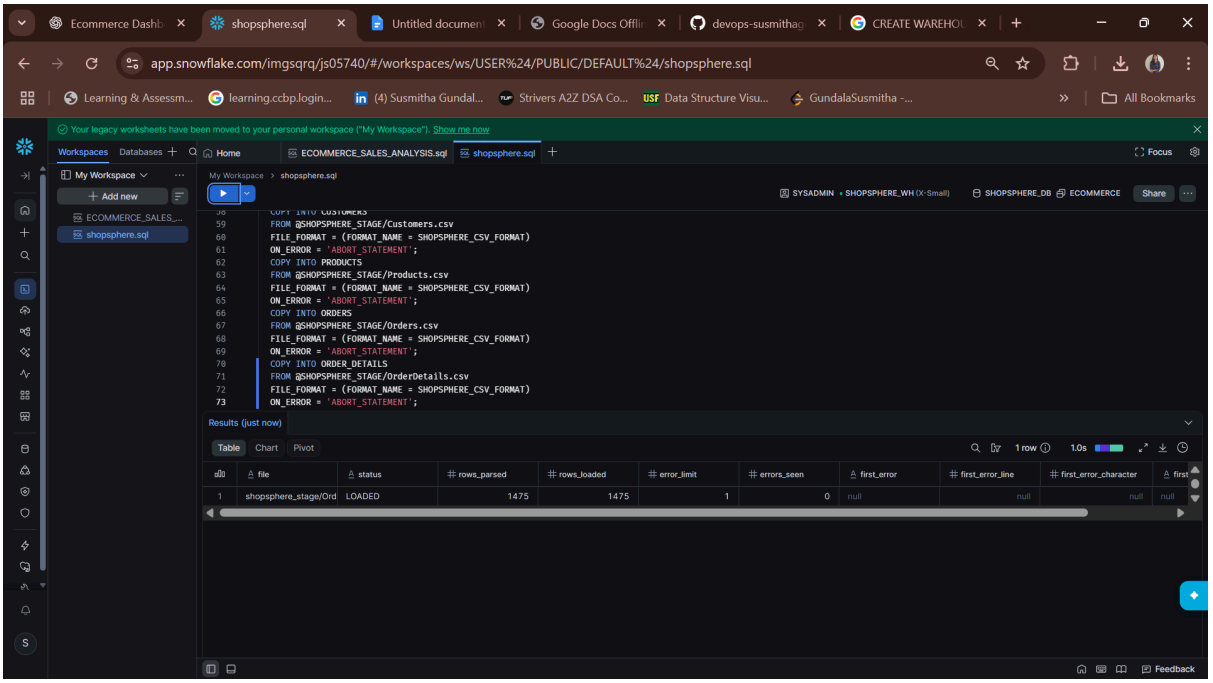

Load the CSV files into tables

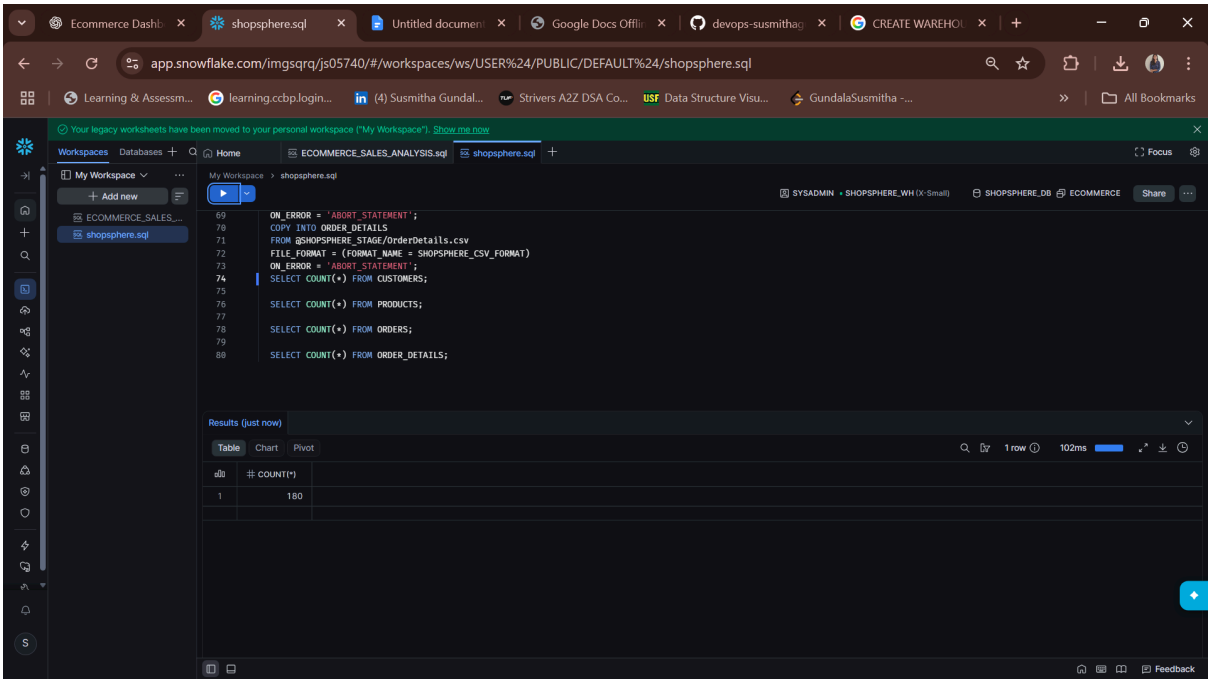

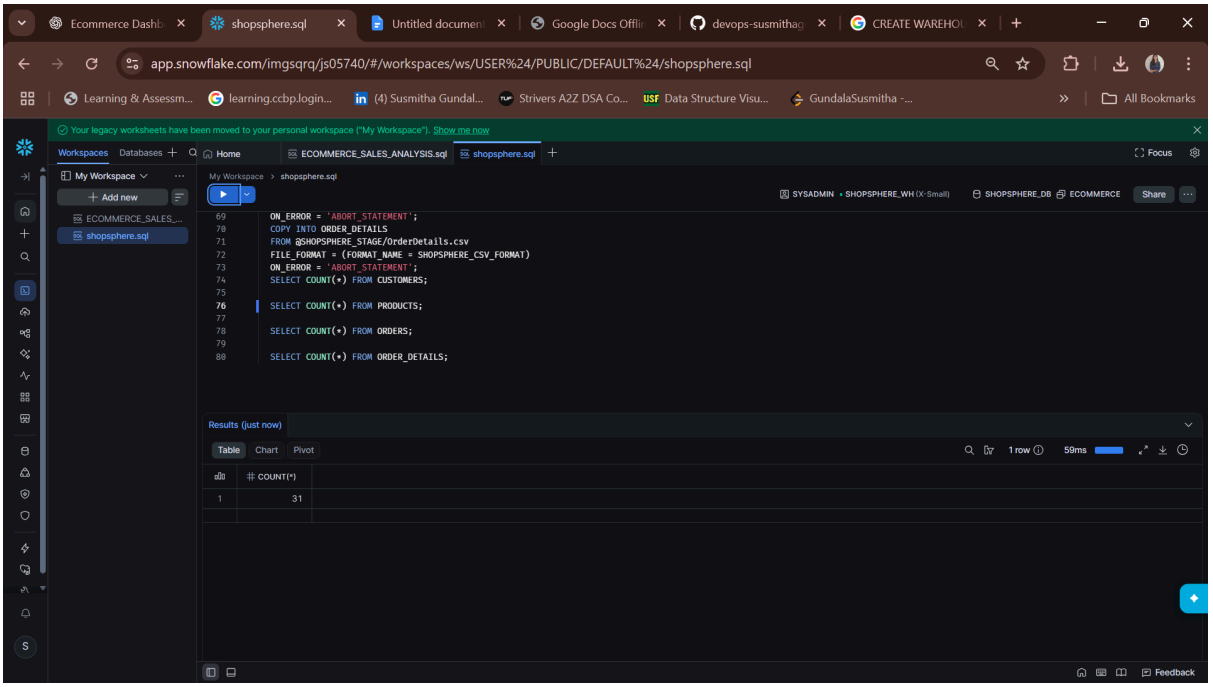

app.snowflake.com/imgsqrq/js05740/#/workspaces/ws/USER%24/PUBLIC/DEFAULT%24/shopsphere.sql
